Capacity
1 US-fluid oz. = 29,57 ml
All fluid capacities are figured to overflow.

Capacity Lines

These items are on stock with capacity lines.
All other items can be printed with a capacity line, please ask your dealer.
Available for:

2, 4, 5 cl, 2 & 4 cl, 0,1 L - 0,5 L, 1L

Safedge® Rim Guarantee

For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a new glass if the rim of a Safedge glass chips." If the rim of any glass covered by the safedge guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

Finedge®

Finedge glassware features a minimum bead and is available on a variety of tumblers and stemware. This finely rimmed glass-ware brings subtle beauty to any establishment.

Safedge® Rim and Foot Guarantee

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

This guarantee covers such lines as Embassy, Embassy Royale, Lexington, Catalina, Teardrop, Perception, etc. This guarantee does not cover breakage.

Sheer Rim/D.T.E.®

Libbey's Sheer Rim/D.T.E. (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life. Sheer Rim/D.T.E. Tumblers and Stemware are guaranteed against chipping of the Rim.

Heat-Treated Glassware

Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on the "blown" glassware is performed only on the upper portion of the glass where most abuse occurs.

Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock and is recommended for fast service cycle operations.

DuraTuff®

The Libbey DuraTuff treatment is a special thermal afterprocess for „pressed“ tumblers and stemware such as Gibraltar, Inverness, Everest, Paneled Tumbler, Dakota and Endeavour. The DuraTuff process is performed only on the upper portion of pressed tumblers and stemware to increase their resistance to thermal and mechanical shock. Libbey's DuraTuff process produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff name embossed on all Libbey DuraTuff products.
